EDUCATION

Southern Alberta Institution of Technologies
Architectural Technologies
GPA: 3.64/4.0

Jan 2021 - Apr 2022
Calgary, AB

University of Calgary
Open Studies (Undeclared)

Sept 2019 - Jan 2021
Calgary, AB

WORK EXPERIENCE

AutoCAD Training
Tricor Design group

May 2022 - Present
Calgary, AB

- Created designs and Blueprints using **AutoCAD** of residential projects such as bungalows with detached and attached garage, duplexes, and semi-detached buildings with a frequency of 3 every week.
- Evaluated projects based on City of Calgary and client feedback to ensure the implementation of changes and revisions is completed in 2-3 days.
- Computed areas for landscape site including hard and soft landscape and tree requirements.

Server

Jan 2022 - Apr 2022
Calgary, AB

Yemeni Village Restaurant

- Assigned guest sitting and served for up to 15 tables (65 people) in a fast-paced environment.
- Memorized 30+ menu options and knowledgeably recommended menu items based on customer needs and preferences.
- Ensured cleanliness of dining area throughout the day and ensured standards set by the Alberta Public Health are maintained.
- Compiled nightly sales numbers of over 120-150 orders daily and increased efficiency of calculations by 20%.

QUALIFICATIONS

Revit - Adding structures details and floor plan design, 5 people group collaboration through central, design phase option allowing individual designs to be portrayed through different timings, point cloud model to import the existing building and recreate it in Revit, furniture family creation.

Virtual reality - Presented capstone project with a group of 5 people with the use of VR Headsets and controllers to display 3D designs in a visual elegance to explicate the key components of the project

AutoCAD - Designing and creating through external references, landscape site modelling and updating plans based on the City of Calgary revisions

Rendering - 3D models rendered into a realistic design using Twin motion and Lumion.

PROJECTS

Bungalow - 422.22m² lot area with a coverage of 153.74m² building plus detached garage. Single storey plus self-contained basement plan sufficient for a family of 6 people.

Semi-detached - 684.48m² lot area with a coverage of 254.89m². 2 storeys building plus basement ideal for 6-8 people and includes 2 parking spaces for each dwelling.

Multipurpose commercial - 2187.59m² lot area with a coverage of 628.52m². 2 storeys building with 1 retail and consumer service and health care service on the 1st floor and 2 offices areas on the 2nd floor.

Revitalization - Modified 626m² of a current SAIT building into a sustainable and eco-friendly makerspace area allowing an approximate of 140 attendees to events held in that area.

LEADERSHIP EXPERIENCE
